

END OF LIFE NOTIFICATION

MODEL P15CB and MODEL P15AV

Dear Customer,

As part of our ongoing product development and product life cycle process, Prime Controls enhanced its P15CB and P15AV model probes/sensors by adding an 16" pigtail cable with connector to the probe in place of the single connector attached to the probe. The pigtail cable eliminates the vibrational stress felt at the original connector/probe junction as a result of normal press operation. The addition of the pigtail cable extends the life and overall quality of the probe. As a result of this improvement, Prime Controls announces the direct replacements for the P15CB and P15AV model probes/sensors (See Table 1) and the end of life timeline (See Table 2).

Table 1: Discontinued Products and Recommended Replacements

DISCONTINUED PRODUCTS	RECOMMENDED REPLACEMENT
P15CB	P15CBE
P15AV	P15AVE

The P15CBE and the P15AVE are direct drop-in replacements to the P15CB and P15AV, identical in form, fit, and function with the exception of the newly added 18" pigtail cable plus connector.

If you would like to make final purchases of the discontinued products, please place an order before the **END OF SALE** date below. Prime Controls reserves the right to limit and allocate quantities in the event demand exceeds available supply.

Table 2: End of Life Timeline

MODEL #	END OF LIFE ANNOUNCEMENT	END OF SALE DATE	END OF SERVICE DATE	EXTENDED SERVICE PERIOD
P15CB	10/1/22	10/1/23	NA	N/A
P15AV	10/1/22	10/1/23	NA	NA
